- Dearborn Mid-west
- Falk
- Fata
- Flexlink/RailGlide
- Frost
- Jervis Webb
- Mayfran
- Morse/EPT
- Nexen/Horton
- Omni Metalcraft
- Philadelphia Gear
- Rexnord
- US Tsubaki
- Webster
- Wilkie Brothers

Product Lines

Bearings

- Cam Followers
- Flange Blocks
- Pillow Blocks

Overhead Chain

Conveyor Chains

- Trolleys
- X-Type rivetless (X348, X458, X678)
- Enclosed track
- Flat-top
- Two-strand
- CC5

Chain / Trolley Attachments

- Clevis pins C,H
- Master pins I, B
- Load bars

Overhead Trolley

Chain Assemblies

- Overhead
- Inverted

Drive Components

- Pusher Dogs
- Cat chains
- Sprockets
- Backup bars
- Backup roller nest
- Gear Boxes
- Motors

Bearings

Lubrication Systems

- Conveyor Chain Lubrication

Steel Hinged Belt

- Side wings
- Roller blocks
- Through pins

Turns

- Roller turn rollers
- Roller turn bolts
- Traction Wheels

Power Trolleys

- Overhead & Inverted
- 3", 4", & 6"

Tow-Bar / Shocks

- Overhead
- Inverted

Other

- Swivel Hooks
- King pins
- Shock Absorbers
- Pedestals
- Hand Push trolleys
- Wear Strips / Bars
- Take-ups

Shock Absorbers

Automotive Expertise

Fast, reliable and experienced automotive team...

Commitment to the automotive production facility is clearly demonstrated by the BDI Automotive Fulfillment Center centrally located in Troy, MI. This facility is staffed with a combined automotive experience of over 160 years and is backed by over \$3.5 million dollars in local inventory dedicated to the automotive industry. BDI's logistics capabilities can deliver critical components to most plants in North America next day or even same day when necessary.

As the preferred supplier to Tier 1 and Tier 2 automotive facilities, operating the Troy Automotive Fulfillment Center 24/7/365 enables all automotive facilities in North America, access to speak to a live person for product application questions, technical support questions, and emergency after-hours service.

Troy Automotive Fulfillment Center: 800-266-5127

Troy, MI Fulfillment Center

Knowledgeable, creative and proven belting specialists...

Belting capabilities include:

- Plant surveys
- Belt Tracking
- Pulley Crowns
- Conveyor Design
- Training Seminars
- Preventative Belt Maintenance
- On-Site Belt Splicing
- Belt Fabrications

Belting products include:

- Light Duty / Heavy Duty Belting
- Plastic Modular Belting
- Wire Mesh Belting
- Teflon / Fiberglass & Silicone / Fiberglass Belting
- Profiled Belting
- Sheet Rubber
- Belt Lacing
- Timing Belts
- Custom Backings
- Pulley Laggings
- Belt Cleaners
- Belt Lacing
- Elevator Buckets
- Conveyors
- Take-Ups
- Belt Trackers
- Roll coverings

Belt Lacing

BDI's mission is to help:

Minimize Downtime

Improve Operations

Upgrade Equipment

Share technological improvements

... and ultimately:

Reduce the cost of daily operations!

Repair and Rebuild

There's plenty of Cost Savings potential working with BDI!

BDI continuously demonstrates documented cost savings through repair and rebuild services.

The cost to replace conveyor components critical to system operations can quickly erode maintenance budgets. BDI delivers significant cost savings by providing repair and refurbishment in the following areas:

Component Repair

- Foreign and domestic Power and Free repair
- Ballscrew and Linear repair
- Bearing repair
- Clutch and Coupling repair
- Gearbox repair
- Roller and Pulley covering
- Hydraulic and Pneumatic repair
- Electrical repair
- Spindle and Live Center repair
- Motor repair

Conveyor Repair

- On-site welding
- Lace repair
- Modifications
- Belt tension and tracking
- Mechanical repair
- Pulley Crowns

Power and Free repair before and after

Reverse Engineering

BDI is skilled at upgrading the components of conveyor systems by providing more durable and long-life products. Automotive engineers and maintenance departments rely on BDI's capabilities to machine and fabricate components from prints, drawings and samples in order to eliminate the lengthy lead times from original equipment manufacturers.
